

More Than Ice Cream

Revala Ltd. was established in 1990 as a logistics and storage service provider for the milk industry. Since then we have developed a reliable network of suppliers and customers.

At the end of the 1990s we launched our original range of milk-based powder blends, including our delicious ice cream powders.

"More than ice cream" describes well Revala ice cream powders. These have been specially developed in cooperation with scientists for healthier dessert – delicious can be stomach friendly!

Lactose-free, natural vitamins, probiotics – these are just a few words to describe our products, making them not only enjoyable, but also beneficial for health!

Soft Ice Cream Powders

Our Soft Ice Cream powders are made from the highest quality ingredients. We use natural food colorants, flavors and preservatives.

ADVANTAGES

Easy to use! Can be prepared with using water or milk. From 1 kg of Revala's soft ice cream powder and 2 liters of water or 2,3 liters of milk can be made:

- about 4-6 liters of ice cream, which gives
- approx. 50 servings of ice cream!

It's super delicious, creamy and fluffy.
